

POWER SMART INCENTIVE PROGRAM

ELIGIBLE PRODUCT INCENTIVES FOR RETAIL

Creating a pleasant shopping environment while reducing energy consumption and saving money makes good business sense. Under the Power Smart Product Incentive Program, products that qualify for incentives lower your payback time and make upgrade projects even more attractive.

The Product Incentive Program, will help your business:

- Save money
- Improve the work environment
- Contribute to environmental sustainability
- Plus your business could receive a financial incentive

Here's how the program works—it's just 4 easy steps!

1. Review your facility and make a list of current and eligible technologies.
2. Purchase and install products.
3. Complete installation and online application within **120 days of invoice date**.
4. Receive incentive—it will be mailed once your paperwork has been processed.

Get started today! Identify energy saving opportunities in your business by using the Energy-Efficient Technologies checklist on the back side of this page.

**CREATE A PLEASANT
SHOPPING EXPERIENCE
WHILE REDUCING
ENERGY CONSUMPTION.**
